F0000	INITIAL COMMENTS The State Agency (SA) conducted an annual recertification survey and Complaint Investigation (CI), MS #3008833, at the facility from 06/01/26 through 06/04/26. During the survey, the SA determined the facility was not in compliance with the requirements of participation in Medicare and Medicaid. MS #3008833 was investigated related to Nursing Services, Quality of care/treatment, and Environment and F584 was cited. During the recertification survey, F584, F628, F641, F656, F677, F761, and F865 were cited. The facility held a license for 100 beds, with a census of 83.			F0000

On 6/1/26 at 10:00 AM, during an observation of the facility, dark spot-like discoloration and residue were observed on vents and wall surfaces throughout the Northeast, North Central, and South Central hallways. Areas of wall damage were also observed with paint scraped away, exposing the underlying wall surface in Resident #31's room. On 6/1/26 at 11:10 AM, during an interview with Housekeeper #1 on the South Wing, she stated she had worked at the facility for three years and the roof had leaked intermittently during that time. On 6/1/26 at 11:20 AM, during an interview with Resident #70, the resident reported the ceiling leaked when it rained and staff placed barrels throughout the facility to collect water. The resident further reported water entered from the floor level causing portions of the flooring to buckle and expressed concern about falling due to the water intrusion. On 6/1/26 at 11:30 AM, during an interview with Resident #48, the resident reported observing roof leaks on multiple occasions near the north middle hall nurses' station and on the south middle hall. The resident reported observing dark-colored staining on ceiling and wall surfaces for several months and stated repairs were made to one area while leaks continued to occur in other locations. He stated he was concerned that that the discolored areas were mold caused by the leaking roof. On 6/1/26 at 1:00 PM, during an interview with Resident #93's family, he reported that the resident was no longer at the facility. He stated that during the latter part of April 2026, rain entered the facility through roof leaks. He reported staff placed barrels in the hallways to collect water and ceiling material was falling to the floor and being discarded by staff. On 6/2/26 at 9:00 AM, during an interview with the Activity Director, she reported the roof leaked intermittently and multiple repair attempts had been made; however, water continued to enter the building in different locations. On 6/2/26 at 10:30 AM, during an interview with Licensed Practical Nurse (LPN) 1, the nurse reported water leaked from the ceiling in the north hallways and staff routinely placed barrels in the hallways to collect water. On 6/2/26 at 1:00 PM, during an interview with the Maintenance Director, the director confirmed the roof had ongoing leaks. The director reported contractors had previously patched sections of the roof; however, water continued to leak from different locations. The director reported a licensed contractor had been contacted to provide an estimate for more extensive roof repairs, but work had been delayed due to weather conditions. The maintenance director also confirmed the paint was scrapped off the wall in Resident 31's room. The Director said he did not know the paint had been scraped off the wall. On 6/2/26 at 1:30 PM, during an interview with the Administrator, the Administrator confirmed the roof had resumed leaking approximately two weeks earlier. The Administrator reported a licensed contractor had been hired and an invoice had been obtained for application of silicone coating to the roof in an effort to stop the leaks. On 6/2/26 at 3:00 PM, during an interview with the roofing contractor, the contractor confirmed he had previously performed patch repairs to the roof. The contractor reported patching was not effective in resolving the leaks and recommended application of a silicone roof coating. Resident #93 Findings include: A review of the facility's policy, "Transfer or Discharge Notice", reviewed 04/10/2023, revealed, "...Residents and/or representatives are notified in writing, and in a language and format they understand...Policy Interpretation and Implementation...4. Under the following circumstances, the notice is given as soon as it is practicable but before the transfer or discharge...d. An immediate transfer or discharge is required by the resident's urgent medical needs...5. The resident and representation are notified in writing of the following information: a. The specific reason for the transfer or discharge..." A record review of "Admission Record" revealed the facility admitted Resident #93 on 4/14/26 with diagnoses including Metabolic Encephalopathy. A record review of the Discharge Minimum Data Set (MDS) with an Assessment Reference Date (ARD) of 05/05/2026 revealed Resident #93 had an unplanned discharged with return anticipated to a short-term general hospital. A record review of the "Emergency Transfer Log for the Office of the State Long-Term Care Ombudsman" for May 2026 revealed Resident #93 was not listed as having transferred during the month, despite being transferred on 5/5/26. A review of the medical record for Resident #93 revealed there was no written notification of transfer indicating the details of the transfer to the hospital on 5/5/26. On 06/04/2026 at 10:49 AM, during an interview with the Social Services Director (SSD) she revealed that residents are not provided with a written notification of transfer to the hospital which includes a reason for the hospitalization. The SSD noted that the RR usually knows the reason for the hospitalization because the facility staff will call them. The Ombudsman noted that Resident #93's name was not included on the list that he received. On 06/04/2026 at 2:30 PM, during an interview with the Business Office Manager (BOM), she revealed that she is responsible for sending out the bed hold and transfer notifications to the resident or the RR at the time the resident leaves the facility for the hospital. She confirmed that there was no transfer notification that included the details of the transfer to the resident or the RR when Resident #93 was transferred to the hospital on 5/5/26. The BOM reported that the reason for providing the RR information in writing regarding hospitalization is to keep the RR informed of the care their loved one is receiving. On 06/04/2026 at 2:41 PM, during an interview with the Administrator she revealed that she was made aware by staff that no written notification of transfer was being provided to the resident or the RR at the time of transfer. The Administrator further confirmed she was made aware that the Emergency Transfer Log for the Office of the State Long-Term Care Ombudsman form for May 2026 did not contain Resident #93's name. The Administrator stated that there should be a space on the hospital transfer form for the reason for hospitalization, but the facility was not using the form. The Administrator noted that the reason for providing information regarding the reason for hospitalization in writing is to maintain communication with the families regarding what's happening with the resident. The Administrator reported that the Business Office Manager is responsible for sending the bed hold and transfer notices. The Administrator stated that the SSD is responsible for submitting a monthly report to the Ombudsman of emergency hospitalizations. She reported that the MDS nurse should review medical records, including dialysis transfer forms and dialysis pre- and post-treatment notes, when completing the assessment. The DON confirmed the Significant Change In Status MDS with an ARD of 5/1/26 was coded "No" for dialysis and acknowledged the assessment should have been coded "Yes" because the resident received dialysis. On 6/4/26 at 12:25 PM, during an interview with the Administrator, she stated it was the responsibility of the MDS nurse to complete MDS assessments accurately. The Administrator confirmed the MDS should have been coded "Yes" for dialysis because Resident #2 received dialysis during the assessment reference period.	F0641

During the current recertification survey, the facility failed to ensure the residents' right to reside in a clean, comfortable, and homelike environment, as evidenced by dark-colored staining and residue on hallway vents and wall surfaces, damaged wall surfaces with paint scraped away exposing the underlying wall material, and recurring roof leaks for three (3) of six (6) halls. (Northeast, North Central, and South Central). On 06/04/2026 at 2:09 PM, during an interview, the Administrator stated that in response to the previous recertification survey and citation for F584 in 2025, the QAPI Committee developed a plan of correction that included discussion of residents' rights to a homelike environment, roof repairs, and ongoing monitoring of the facility's physical environment. The Administrator reported the facility repaired one section of the roof and initially did not identify			F0865

The Administrator reported the plan of correction also included routine monitoring of the facility to identify areas in need of repair or replacement. She stated maintenance and administrative staff conducted weekly rounds of resident rooms and common areas to identify concerns such as roof damage, chipped paint, and other structural issues. The Administrator reported each department was responsible for identifying and reporting environmental concerns and that findings were discussed during QAPI meetings. The Administrator stated the monitoring period was conducted from 10/13/2025 through 04/30/2026 and was reimplemented every six months. The Administrator reported no complaints regarding roof leaks or other structural concerns had been reported to staff. The Administrator further stated she had been in communication with the corporate office and a decision had been made to replace the entire roof.			F0865
