M0000	Initial Comments The State Agency (SA) conducted three (3) Complaint Investigation (CI MS# 2969227, CI MS# 2976550, and CI MS# 3020366) at the facility on 6/8/26. During the survey, the SA determined that the facility was in not compliance with the requirements of the Mississippi Regulations for the Minimum Standards for Institutions for Aged or Infirm for CI MS# 3020366 and cited M615. There were no deficiencies cited for CI MS# 2969227 and CI MS# 2976550. Census at the time of the survey was 108 with a bed capacity of 120 beds.		M0000				
M0615	45.21.3 Pressure sores Pressure sores. Residents with a pressure sore shall receive necessary treatment and service to promote healing and prevent the development of new pressure sores. Residents without pressure sores will not develop pressure sores unless the residents' clinical condition indicates they were unavoidable. This LICENSURE REQUIREMENT is NOT MET as evidenced by: Based on record review, staff interview, and facility policy review the facility failed to ensure a resident who was admitted with multiple pressure ulcers and other wounds received necessary treatment and services to promote healing and prevent worsening by failing to obtain wound treatment orders and initiate wound care upon admission for one (1) of three (3) residents reviewed for pressure ulcers. Resident #1. Findings included: Record review of the facility policy "Wound Care" revealed "Policy... Wound Care Orders and Care Plans. Each individual wound site requires a separate wound care order..." A record review of progress notes for Resident #1, dated 4/17/26, revealed the resident refused assessment of her wounds. The physician was notified; however, there was no documentation that wound treatment orders were obtained.		M0615

M0615	Continued from page 1 Further record review of a nursing progress note for Resident #1, dated 4/19/26, documented the resident had multiple wounds including a right heel pressure ulcer with slough, a right hip pressure ulcer with eschar, Stage four (4) pressure ulcers to the right buttock, sacrum, and left buttock with tunneling, and additional wounds to the lower extremities. Despite documentation identifying the wounds, no wound treatment orders were obtained. Record review of the April 2026 "Order Summary Report" for Resident #1 revealed no wound treatment orders were entered until 4/28/26. Record review of the April 2026 "Treatment Administration Record" (TAR) revealed no documented wound care treatments were provided prior to 4/22/26. Telephone interview on 6/8/26 at 3:39 PM, Wound Care Nurse Practitioner verified that she attempted to assess Resident #1's wounds on 4/21/26 but the resident refused to allow her too. The Wound Care Nurse Practitioner stated she was unaware the facility had not obtained treatment orders and agreed that basic treatment orders to clean and dress the wounds could have been obtained despite the resident's refusal of assessment. During an interview on 6/8/26 at 3:47 PM, Registered Nurse (RN) #1 stated the resident refused wound assessment upon admission and that he notified the Director of Nursing of the refusal. He stated he did not recall whether wound care orders were obtained at that time but agreed wound treatment orders should have been obtained. Interview with the Director of Nursing on 6/8/26 at 4:05 PM, she verified the resident had no wound treatment orders prior to 4/22/26 and agreed wound treatment orders should have been obtained upon admission. During a telephone interview, on 6/8/26 at 4:39 PM, the Treatment Nurse stated Resident #1 initially refused wound assessment but agreed wound treatment orders should have been obtained at the time of admission and acknowledged that failure to obtain treatment orders could result in worsening of wounds. Record review of the "Admission Record" revealed that the facility admitted Resident #1 on 4/17/26 with diagnoses that included Diabetes Mellitus, Chronic Venous Hypertension with Ulcer of the Left		M0615
